Technical Skills

Strong: JavaScript ▴ AngularJS ▴ React ▴ Node.js ▴ MongoDB ▴ MySQL ▴ Mocha ▴ Chai
AWS ▴ HTML5 ▴ jQuery ▴ Postman ▴ Agile Workflow ▴ Material UI ▴ CSS ▴ Bootstrap

Experienced: Redux ▴ Webpack ▴ Knex.js ▴ PostgreSQL ▴ Backbone ▴ Git ▴ Grunt

Recent Applications

SurveyScribe | github.com/ScribeTech/SurveyScribe   *Full Stack Engineer*

Simple survey creating app that lets you create a link to share the survey
▸ Implemented TDD using Mocha and Chai on the Redux reducers, utilities and backend api routes
▸ Created reducers and actions to interact with the Redux store with React
▸ Utilized Webpack to designed user interface with Material Design UI
▸ Constructed flexible MongoDB schema using Mongoose discriminator for different survey question types

Echoes | github.com/pegatech/echoes   *Full Stack Engineer*

Music journal app that keeps track of all of your album impressions and ratings
▸ Refactored a legacy code base by adding social networking feature(following) to improve UX
▸ Expanded on previous PostgreSQL schema to keep track of user's followers
▸ Created a API route on the Node server to handle user following and unfollowing
▸ Designed React components to add a social media feed aspect to the app

CardCast | cardcast.wjchung.com   *Full Stack Engineer*

Chromecast tool for collaborative presentations
▸ Interacted with Google Cast SDK to implement the casting functionality to the app
▸ Developed user interface using Angular directives, Bootstrap and MDL
▸ Built models for MongoDB using Mongoose and controllers to keep track of user's slides
▸ Architected a Node/Express to handle receiver's and sender's request using REST architecture

Professional Experience

Hack Reactor | *Hacker in Residence*   *2017*
▸ Tutored current students in JavaScript fundamentals, data structures, front-end frameworks, server-side techniques, database integration, deployment, and application architecture

1820 Services | *IT Technician*   *2015 - 2016*
▸ Maintained virtual server farm and workstations uptime using vmware
▸ Managed network congestion, servers and workstations by scaling and separating traffics

Education

HackReactor | *Advanced Software Engineering Immersive*   *2017*
Texas A&M Corpus Christi | *Computer Science*   *2016*

Personal

I am fluent in Korean and I've played in a state tennis tournament in High School. I believe this qualifies me to say that I'll increase your team's average ping pong ranking.
